Technical Projects

Tic Tac Toe An Android Application

🔗 [Live Demo](#)

A simple Android-based Tic Tac Toe game using Java. It supports two-player mode with a clean UI and game result detection. Built for beginners to understand Android UI.

SikshaAssist

🔗 [Live Demo](#)

An AI-powered education app to help teachers automate assignment checking and provide personalized feedback. Includes features like an AI chatbot for students, dashboards, and teacher tools. Designed to ease workload and support learning.

Feel-Better

🔗 [Live Demo](#)

A mental health web app offering an AI chatbot, depression test, relaxing music, and book suggestions. Built with Node.js and deployed on Vercel, it helps users manage stress and feel emotionally supported.
